# Overall System Model

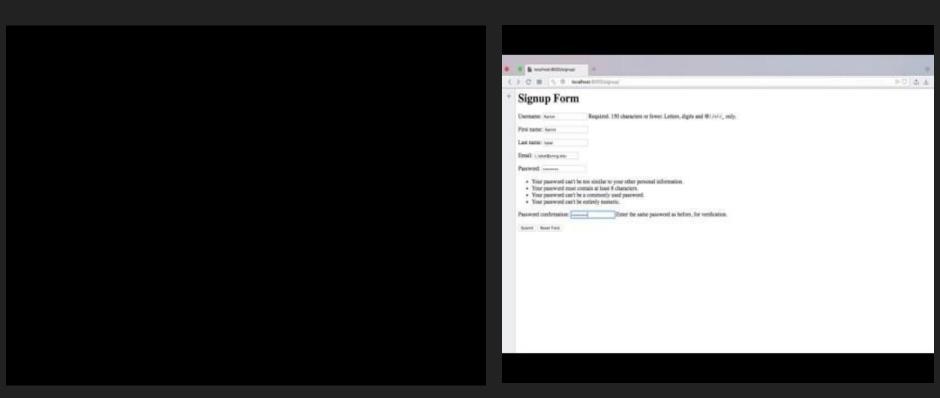

# Signup Form Username: Required. 150 characters or fewer. Letters, digits and @/J+/-/\_only. First name: Last name: Email: Password: • Your password can't be too similar to your other personal information. • Your password must contain at least 8 characters. • Your password can't be a commonly used password. • Your password can't be entirely numeric. Password confirmation: Enter the same password as before, for verification. Submit Reset Field

# SignUp, Login, and Logout

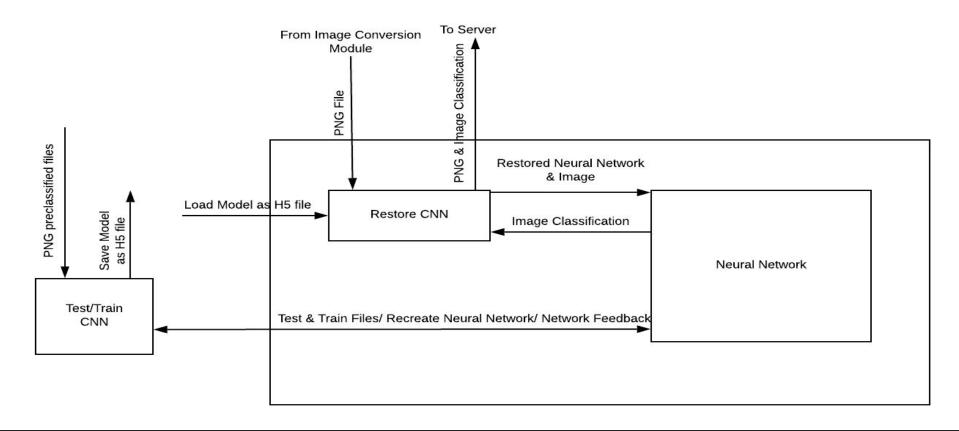

# User signup, and login demo and user validation

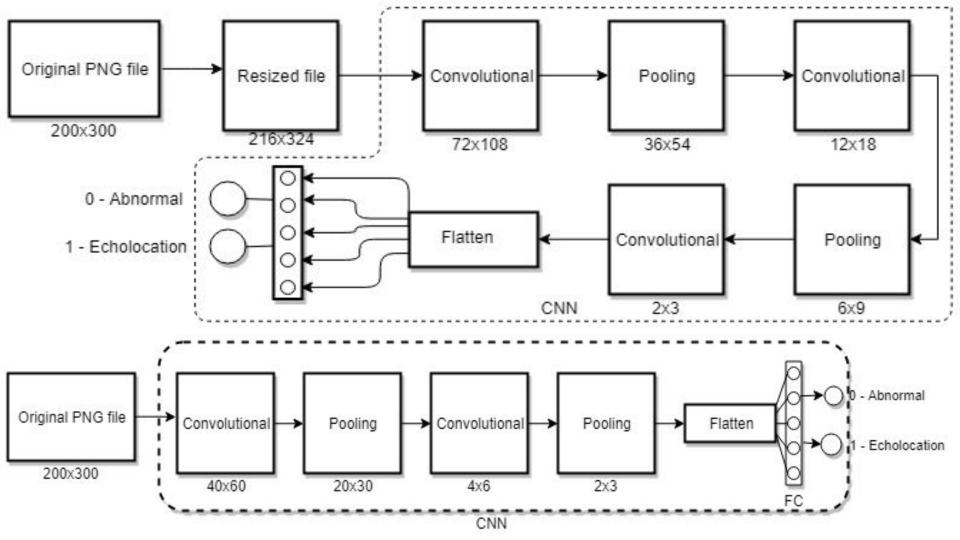

Your Company Name 4

- Created Restore CNN function to work with a single image and array of images
- Recreated Test/Train CNN to work with an array of images & caused OOM error
- Continued to test CNN models to increase accuracy

# Database API Progress

## **Command-line testing**

- DB API output  $\rightarrow$
- Handling PNG images
- Later on: working with actual tables in DB; handling user reg info

### Django's intrinsic DB API

- ullet models.py ullet tables
- Python shell w/in cmd
- Possible incorporate my API?

# Live server

## **UNCG Virtual Server**

- Reliable
- Payment plans
- Project appropriate

#### Personal server

- Inexpensive
- Flexible
- <u>High maintenance</u>

# Requirements

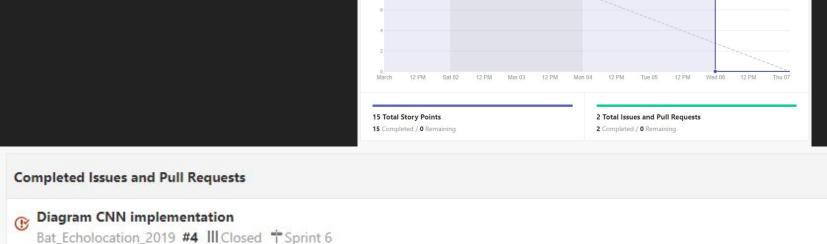

- 1. **24/7 live access**
- 2. >10GB of storage
- 3. Low end specs

# Web-Hosting Company

- Get what you pay for
- Research important
- Powerful features

# **Scrum Sprint 6**

Sprint 6

- Discuss project plans for Sprint 6
